

# Need a vendor-neutral & scalable monitoring system?

Discover APC's InfraStruXure® Central  
- a data centre management software, now fully vendor neutral!

InfraStruXure Central v 5.0 gives your customers an unprecedented level of visibility to the physical infrastructure layer of their data centre and enables them to reduce costs whilst increasing availability and reliability. They will be able to power down idle assets, avoid hot spots and equipment failure, rescue stranded capacity and know about security issues - before they become a problem.
